

Day 2

At the Institute for Architecture, 2002 April 10.

Location.

The location for the first full day of the Mat@mium conference, and the base location of the organization, was the W&K Institute for Architecture, W&K being short notation for the Dutch words *Wetenschap* (science) and *Kunst* (art). The contributions of this chapter were presented there.

The participants were embedded in the Brussels' environment by an additional evening visit to the *Grand-Place* of Brussels, a mandatory tourist spot for every dedicated artist or architect.
